1. About me

HELLO.
I'm Laura

The face behind Eleme Creations.

I grew up in the countryside in north Spain where my passion for animals and nature grew with me. I started my journey pressing flowers by the age of 7 when my mum gave me my first flower press. I've never stop pressing flower since.

Im a self-taught artist. Just a bit of patience, quite a few trials and errors and a lot of perserverance.

2. The brand

ELEME

Creations

Eleme is an acronym. It's how my initials are read: L-M-E, if you omit the repeated letters you get Eleme.

The idea of creating this business was born during the global pandemic, in 2020. The idea came to spend the hours doing something relaxing and mindful.

Eleme Creations is all about flowers and flower preservation. Most of the materials to carry out the pressing process are reusable and sustainable. But here, we not only press flowers, we also create beautiful one-of-a-kind pieces with them too.

3. Mission

Mission

At Eleme Creations we seek to preserve flowers and all the memories that accompany them. We want to create pieces that speak to your soul and make you feel any kind of emotion when looking at them.

Like photographs, flowers carry memories, memories that we now can keep by preserving them forever.

4. Bridal bouquet preservation

Bouquet preservation

Flowers are one of the most significant parts of your wedding day. You take time to choose the colour palette, the type of flowers, the decoration, etc. But the day just goes by in a blink of an eye. The flowers start to wilt and you will have to throw them away after several days.

You can make something different and unique with your flowers: preserving them in a everlasting bespoke piece. At Eleme Creations we can do this for you in your preferred style.

5. Canvas / artwork with background

Beautiful artwork with your wedding flowers on a black or white background. It can be styled in flower mesh or mosaic or recreating the original bouquet. All the options include the frame.
